Verbal Description:

This is a zoomorphic figurine frag with a feline-like face. The head itself is slightly triangular, there are small, rounded ears applied at the rear corners of the head, the nose is slightly rounded with two large, punctated nostrils and a slightly raised upper margin. The tops of the nose is also wrinkled - rather like a dog. The eyes are almond-shaped w/ punctated pupils and they are accented by grooves which trace their margins & then continue toward the nose - flaring forward & upward. There are also a few incised "wrinkles" along the jaw. The top of the head has a raised crest.
